

## Summer Enrichment Programs

### Mastering Multiplication

Understanding, knowing, and eventually mastering basic multiplication facts provide a solid foundation for future understanding and completion of math concepts successfully and with confidence. This class will provide students with an opportunity to learn and reinforce their multiplication skills. We will use games and other activities to increase speed and accuracy of these facts. Students will be asked to practice a personalized set of multiplication facts in-between classes.

$$\begin{array}{r} 212 \\ \times 14 \\ \hline 848 \end{array}$$

- This class is open to all incoming 3rd, 4th, and 5th grade students.
- Tuesday/Wednesday/Thursday morning 9:00-9:45, (July 5, 6, 7, 12, 13, 14, 19, 20, 21)

### Fantastic Fun with Fractions

Fractions are all around us. Cooking. Measurements. Making conversions. As students continue in math, fraction knowledge will help them be successful with decimals and percentages. We'll gain an understanding of what fractions represent, how we can compare them, and find equivalent fractions. We'll also call on our multiplication and

division skills to simplify, add, and subtract fractions.

- Content will be designed more closely to an incoming 5th grader, but all incoming 4th, 5th, and 6th graders are welcome to enroll.
- Tuesday/Wednesday/Thursday morning 10:00-10:45, (July 5, 6, 7, 12, 13, 14, 19, 20, 21)

### Financial Literacy "101"

Savings, checking, loans, budgets. What are they? Why are they important? How much should you save? How can you set a plan and make goals if you want to save up for more? And when you get older, is that credit card application worth that free t-shirt at the Bucks game? These answers and more will be answered in this class and knowledge learned could be applied for a lifetime.

- This class is open to incoming 7th, 8th, and 9th graders.
- Tuesday/Wednesday/Thursday morning 11:00-12:00, (July 12, 13, 14, 19, 20, 21)

### **Super Sight Words 1**

- Recommended for students who have completed kindergarten
- Review and hopefully master all sight words learned in kindergarten and possibly move into some of first grade sight words
- Much of the learning/reviewing will be done by playing games
- Dates: July 11-14
- Time: 9-9:45

### **Super Sight Words 2**

- Recommended for students who have completed first grade.
- Review and hopefully master all sight words learned in first grade.
- Much of the learning/reviewing will be done by playing games
- Date: July 11-14
- Time: 10-10:45

### **Secret Phonics Stories 1**

- Recommended for students who have completed kindergarten.
- Review letter sounds learned in kindergarten
- Crafts and sounding out words using a variety of materials
- Dates: July 18-21
- Time: 9-9:45

### **Secret Phonics Stories 2**

- Recommended for students who have completed first grade.
- Review letter sounds and letter combinations learned in first grade
- Crafts and sounding out words using a variety of materials
- Dates: July 18-21
- Time: 10-10:45

### **Rockin' Readers 1**

- Recommended for students who have completed kindergarten.
- Work on different reading skills.
- Dates: July 25-28
- Time: 9-9:45

### **Rockin' Readers 2**

- Recommended for students who have completed first grade.
- Work on different reading skills.
- Dates: July 25-28
- Time: 10-10:45

## **Write On!**

- Incoming 4th, 5th, and 6th graders.
- Recommended for: students at or near grade level
- Class Activities to include: poetry, journal and short story writing
- Course Length: Tuesday/Wednesday/Thursday morning 11:00-11:45 (July 5, 6, 7, 12, 13, 14, 19, 20, 21)

## **Beyond the Book 3rd/4th**

### *"Mr. Popper's Penguins"*

- Incoming 3rd and 4th graders
- Recommended for: students at or near grade level
- Class Activities to include: group guided reading, group discussion
- Course Length: Tuesday/Wednesday/Thursday morning 10:00-10:45 (July 5, 6, 7, 12, 13, 14, 19, 20, 21)

## **Beyond the Book 5th/6th**

### *"Hatchet"*

- Incoming 5th and 6th graders
- Recommended for: students at or near grade level
- Class Activities to include: group guided reading, group discussions
- Course Length: Tuesday/Wednesday/Thursday morning 11:00-11:45 (July 5, 6, 7, 12, 13, 14, 19, 20, 21)
